

Frozen sample management solution  
**FreezerPro®**

## Complete Solution for Sample Tracking for Cryogenic Storage.

FreezerPro is an intuitive, fast, reliable and secure solution which enables users to know precisely where a laboratory sample is located even before opening the freezer door.

PRO

ECO

Regulatory Compliance / FreezerPro is compliant with the following standards:

- FDA 21 CFR Part 11.
- cGLP/cGMP (Good Laboratory Practice and Good Manufacturing Practice).
- Section 508 Accessibility Guidelines.
- HIPAA Accountability Act of 1996.
- HIPAA Patient Safety and Quality Improvement Act of 2005 (Patient Safety Act).

- **FreezerPro® Standard** Version: Entry level.
- **FreezerPro® Enterprise** Version: Business level.

### Main features

**Sample Alerts** / Easily setup alerts to notify users about low number of sample aliquots, sample expiration date, sample volume or freeze-thaw cycle count.

**Truly Web-based** / FreezerPro is designed and developed as a Web-based Sample Management Solution that provides access to sample information from a remote computer.

**Complete Sample Management** / Store all sample information, aliquot numbers, dates, web links and images. Set alerts, generate reports and much more. Graphic display of boxes with samples represented by a variety of colorful icons makes visual sample identification easier than ever. Name boxes, set a list of favorite boxes, and see recently viewed boxes and samples to navigate and find frozen samples faster.

**Easy to follow workflow** / Master it in almost no time and get additional support from a user-friendly manual with step-by-step instructions.

**Unique Virtual Freezers® capability** / Easy setup, management and upgrade of virtual freezers that accurately emulate the configuration of your actual freezers including all doors, shelves, racks, other subdivisions, and boxes.

**Data Import** / Import spreadsheets with sample information in only a few clicks. Optimize storage space usage, change sample location, or transfer an entire box of samples from one location to another with a simple drag-and-drop.

**Audit trails** / FreezerPro keeps and displays audit trails for all significant and sensitive events, including those related to security and workflow.

**Smart Search** / New Advanced search with live query builder and Smart Folders.

**Live Search** / A powerful FreezerPro feature enables you to search as you type by name, ID number, or any word or part of a word with instant graphical display of the sample's location in the freezer and in the box.

**Strict administration** / FreezerPro provides role-based access to sample information and rights to modify program configuration.

**Security** / Access to data stored in FreezerPro is protected by username/password and limited idle time sessions that virtually eliminate unauthorized activity. FreezerPro is built on a world-class secure platform!

**Multi-language support** / FreezerPro has full unicode (UTF-8) support and can be used with all language and font styles.

**Sample Identification** / Barcode label printing, scanning, and verification. Easy barcode generation for instant recovery of sample information and location.

## FreezerPro® + RFID (RFID Kit) /

- Turnkey: our best-of-breed solution featuring components that are in use today at customers around the world.
- User experience: fully compatible hardware and software take the guesswork out of what to purchase.
- Cost-effective: time consuming tasks like inventory and audits can be completed in a fraction of the time they used to take.
- Secure: encryption, controlled user access and enhanced lab security ensure data integrity.

### Optional /

- Larger, long-range box/plate RFID tags.
- Wireless RFID handheld readers – Available wireless handheld RFID readers offer connectivity via WiFi, Bluetooth and even cellular networks. New mobile FreezerPro client with “audit mode” for accelerating inventory reporting and an innovative “locator mode” to ease finding sample boxes/plates in storage.

## Feature List

Features	FreezerPro Standard	FreezerPro Enterprise
Truly web-based. Install once, access from anywhere	X	X
Complete Sample Management	X	X
Track sample in and out of freezers	X	X
Graphic display of boxes with samples represented by a variety of colorful icons	X	X
Sample Alerts	X	X
Easy to follow workflow	X	X
Virtual Freezers®	X	X
Visual label designer. Customize labels with any text or sample field on the label.	X	X
Data Import/Export/Update. Full reporting with HTML, Text, PDF or CSV formats.	X	X
Live Search. Instant search by word or part of the keyword.	X	X
Smart Search. Live query builder and Smart Folders.	X	X
Full Audit Trails	X	X
Multi-language support	X	X
Mobile devices support	X	X
Support for freezer sensors data		X
Option of restricting user access to certain freezers, shelves, racks, boxes, samples or sample fields.		X
Shipping Module		X
SSL data encryption		X
User authentication via Active Directory Domain Services (LDAP)		X
Support for customer's provided databases (PostgreSQL, MySQL, Oracle, Microsoft SQL Server)		X
Application Programming Interface (API)		X
HIPAA compliance		X
GLP Mode for strict operations		X
Hyper-V support on Microsoft Windows Server		X

## System Requirements

FreezerPro is a web-based application that can be accessed by just about any web browser. The software leverages the power of VMware virtualization, which enables it to run on a variety of PC, Mac and Linux systems.

Network and security integration by a qualified technician is highly recommended.

### FreezerPro® Install once – access from anywhere!

FreezerPro Standard - Know where your samples are! How many you have left. Be alerted when running low. We offer a well thought out sample inventory system to better manage laboratory samples in your freezers, LN2 tanks and even at the repository.

FreezerPro Enterprise -FreezerPro Enterprise includes all features of FreezerPro Standard and addresses critical security and accessibility issues essential to large-scale frozen sample storage and management.

FreezerPro RFID - A quantum leap in cryolabeling and cryostorage - we are no longer forced to scan an icy barcodes and the entire box can be read in the time that a single vial used to take to scan.

### FreezerPro RFID Kit

FreezerPro RFID Kit is the best-of-breed, fully integrated RFID solution for labs of just about any size specializing in the collection and management of frozen samples.

**The FreezerPro RFID Kit provides you with a matched set of hardware, software and services designed to ease the introduction of RFID management technology into your lab. Components include:**

- FreezerPro Enterprise, RFID edition.
- 1000 cryo safe RFID labels.
- 1 Zebra label printer.
- 1 Impinj Speedway Revolution RFID reader.
- 2 RFID antennas.

 <b>Live Search</b>	 <b>Label Designer</b>	 <b>Virtual Freezers®</b>	 <b>Sample Alerts</b>
Instant search by word or part of the keyword.	Customize labels with any text or sample field on the label.	Accurately emulate the configuration of your actual freezers including all doors, shelves, racks, other subdivisions, and boxes.	Be notified about low number of sample aliquots, sample expiration date, sample volume or freeze-thaw cycle count.
